DEFINIZIONI DI PROGETTO

“A project is a complex process; it is unique and with a fixed duration; it is oriented to achieving a clear and predefined goal through a continuous process made of resources control within interdependent constraints of cost - time – quality”

Ref Archibald “Project management”

“A project is a series of activities aimed at bringing about clearly specified objectives within a defined time-period and with a defined budget. A project should have:

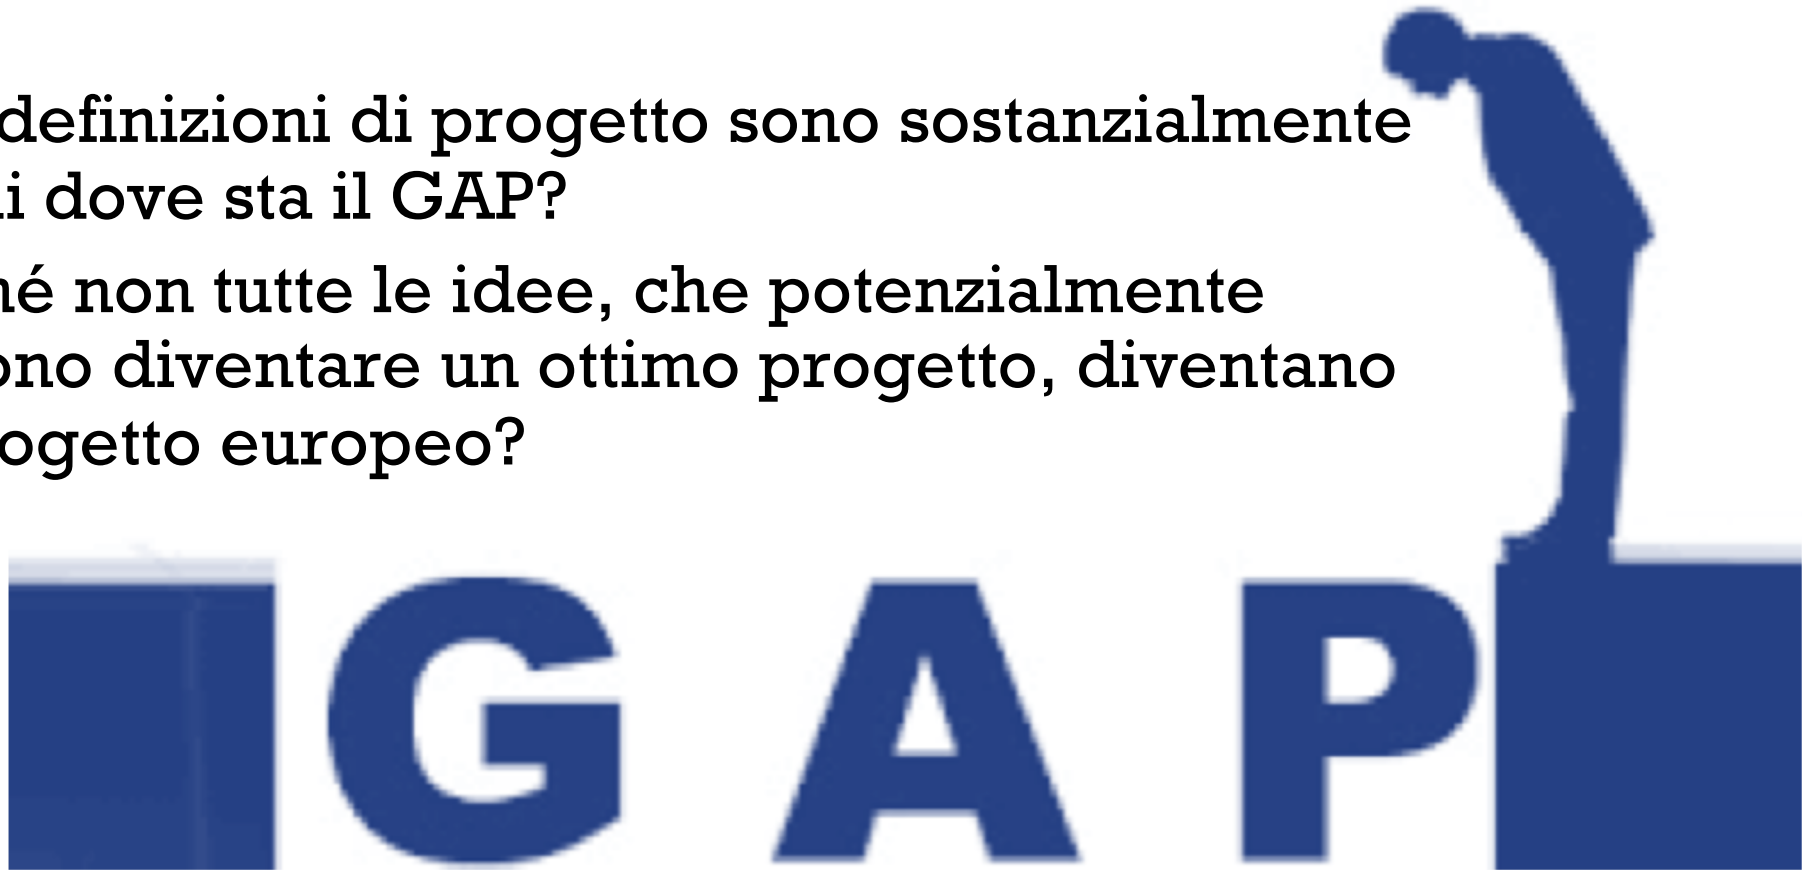

- Clearly identified stakeholders, including the primary target group and the final beneficiaries;
- Clearly defined coordination, management and financing arrangements;
- A monitoring and evaluation system (to support performance management);
- An appropriate level of financial and economic analysis, which indicates that the project's benefits will exceed its costs.”

Ref . “PCM EU guideline)

MIND THE GAP

- se le definizioni di progetto sono sostanzialmente uguali dove sta il GAP?
- perché non tutte le idee, che potenzialmente possono diventare un ottimo progetto, diventano un progetto europeo?

PRINCIPI DI ATTRIBUZIONE SUSSIDIARIETÀ PROPORZIONALITÀ

- Per comprendere il GAP è importante richiamare i **principi** alla base del «funzionamento» dell' UE
- Il **principio di attribuzione** stabilisce che l'UE agisce esclusivamente nei **limiti** delle competenze che le sono attribuite dai trattati.
- I **principi di sussidiarietà e di proporzionalità** sono un corollario al principio di attribuzione e stabiliscono in quale **misura** l'UE può esercitare le competenze che le sono attribuite dai TRATTATI
- Il principio di sussidiarietà mira a **stabilire il livello d'intervento più pertinente nei settori di competenza condivisa**, tra l'UE e i paesi dell'UE, pur puntando ad avvicinare l'UE ai suoi cittadini garantendo l'adozione di un'azione a livello locale ogni qualvolta ciò sia necessario, non significa necessariamente che un'azione debba sempre essere presa al livello più vicino al cittadino.

IL GAP È SOPRATTUTTO

- una questione
- di **Relevance!**

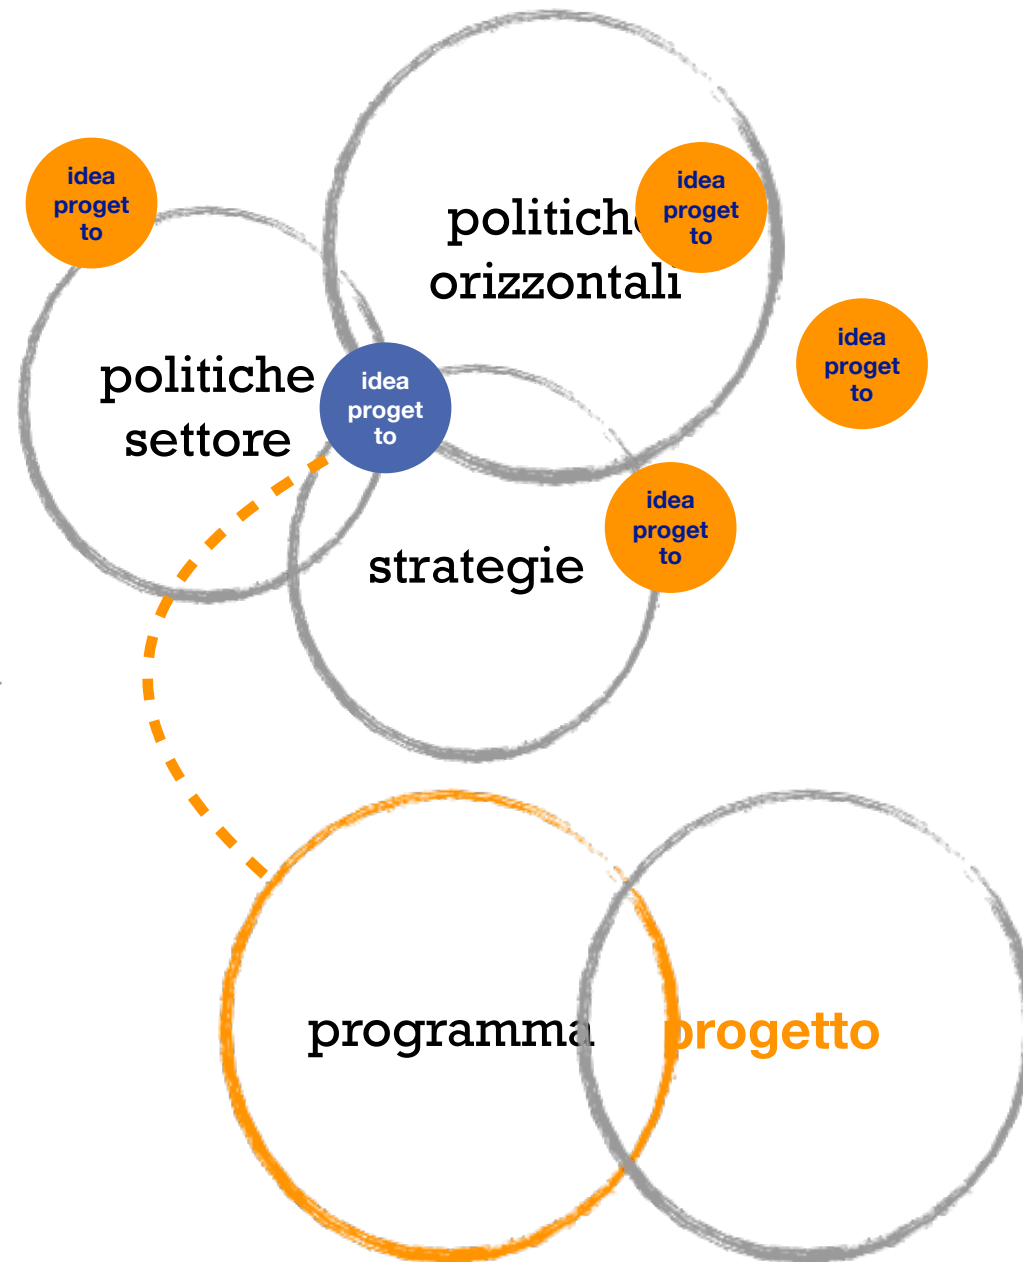

LA RELEVANCE

Coerenza con le politiche
e le strategie europee
Rilevanza per il
programma

idea
proget
to

idea
proget
to

idea
proget
to

- un **programma** europeo è lo strumento attraverso cui la Commissione Europea gestisce i fondi per conseguire gli obiettivi e le politiche che le sono attribuite.
- La CALL for proposals rappresenta la Richiesta a presentare progetti capaci di contribuire al raggiungimento degli obiettivi specifici del programma
- Quindi un progetto diventa un progetto europeo se
 - Se è coerente con programma, con le politiche e le strategie europee
 - se affronta problemi di dimensione europea,
 - se produce valore aggiunto di livello europeo
- Conoscere le **politiche** e le strategie Eu (es. Europe 2020, ...) prima di cercare un programma è fondamentale per effettuare una valutazione preliminare di **fattibilità** dell'idea

IL GAP È ANCHE UNA QUESTIONE

- Innovation
- European Added Value

Lo **stato dell'arte** è la situazione del problema e **tutti i precedenti tentativi**, (studi ricerche progetti) fatti per cercare soluzioni al problema e portare al cambiamento

Un progetto nasce con l'obiettivo di portare un CAMBIAMENTO, un miglioramento di una situazione/contesto problematica/o

Innovare significa «**fare un passo oltre**» rispetto i precedenti tentativi

Analizzare lo stato dell'arte richiede la **partecipazione** di esperti del settore e degli stakeholders

Conoscere e descrivere lo stato dell'arte è importante perché dimostra che il progetto è innovativo o nuovo

STATO DELL'ARTE

INNOVAZIONE

EU ADDED VALUE

un progetto contribuisce al raggiungimento delle politiche europee (rapporto con la relevance)

un progetto anche se nasce per affrontare una questione locale produce **outputs riproducibili e trasferibili** in altri contesti con problemi simili riconosciuti rilevanti dall'EU

un progetto produce impatti ed **effetti su contesti** economici, sociali culturali e geografici **transnazionali** (capacità di generare impatti su aree di scala europea)

il progetto **trae beneficio** dalla dimensione europea (la sovvenzione è necessaria perché da vita a qualcosa che non potrebbe esistere senza e ... che è rilevante)

il progetto non potrebbe essere sviluppato in contesti locali con la medesima **efficacia** conseguibile a livello europeo

la **dimensione europea** può generare **esternalità** tali da garantire migliori **benefici**

IL GAP È ANCHE UNA QUESTIONE

- IMPATTO
- Follow up
- Sustainability

Il potenziale impatto del progetto si definisce in relazione alla capacità del progetto di portare un cambiamento al contesto iniziale problematico

I progetti producono output che devono essere trasferiti ai destinatari finali: i veri attori del cambiamento atteso

L'impatto si misura quindi in relazione ai partecipanti diretti e indiretti durante e dopo l'arco della durata del progetto

L'impatto si manifesta al di fuori delle organizzazioni che partecipano direttamente al progetto, a livello locale, regionale, nazionale e/europeo

Vi è una forte relazione tra impatto e qualità del piano di disseminazione L'impatto è funzione dell'adeguatezza e la qualità delle misure che mirano alla condivisione degli outcome del progetto all'interno e all'esterno delle organizzazioni partecipanti.

L'impatto è funzione anche della qualità dei piani per assicurare la sostenibilità del progetto: la sua capacità di continuare ad avere un impatto e di produrre risultati dopo il termine della sovvenzione dell'UE

- Gli effetti del progetto devono continuare oltre la sua fine
- se il progetto sviluppa piattaforme, osservatori, Learning tool, se il progetto costruisce network questi devono continuare a funzionare oltre la fine del progetto
- La sostenibilità è
 - FINANZIARIA
 - POLITICA
 - AMMINISTRATIVA
 - Risorse umane (skills e competenze)
- E importante, ma non sufficiente, dimostrare che un progetto sia coerente con altri programmi

IL GAP È ANCHE UNA QUESTIONE DI COERENZA INTERNA > OVVERO DI QUALITÀ DEL DESIGN E DEI MANAGEMENT ARRANGEMENTS

- La progettazione deve unire QUALITÀ CREATIVITÀ LOGICA
- Per essere coerente internamente un progetto deve essere «DISEGNATO»
- Il processo di design deve essere gestito
- Gli obiettivi devono essere collegati a obiettivi del programma; il workplan deve essere strutturato intorno a obiettivi specifici di progetto
- Le modalità di gestione devono essere pianificate e coerenti
- Vedi PCM > Strumenti di Progettazione (GOPP, TOC) e di Project Management (WBS, WDW/OBS, CBS, GANTT > workplan...)

IL GAP È ANCHE UNA QUESTIONE

- Partnership
- ... e staff

PARTNERSHIP

- Quasi tutti i progetti europei richiedono la partecipazione in partenariato transazionale (poche eccezioni)
- Dimensione e qualità del partenariato e dello staff assegnato al progetto incide sulla valutazione

La partnership deve essere vista come una **risorsa** indispensabile (non un criterio di eleggibilità!) allo sviluppo della nostra proposta progettuale e alla sua successiva implementazione, e mai come un imposizione derivante da un requisito di ammissibilità.

I partner non sono subcontraenti!

Vedersi imporre determinate attività ad un determinato costo, con un cofinanziamento richiesto, essendo stati appena consultati, può risultare snervante e garantire assai scarsa collaborazione in futuro, o persino resistenza e ostilità durante la vita del progetto.

La strategia giusta è quella del “vincere tutti” (logica **win win**): tutti i partner perseguono fini comuni per un reciproco vantaggio.

Per esserci comunanza di fini, i partner devono essere **coinvolti nell’elaborazione** del progetto

COME SELEZIONARE?

Condividere la «project idea» e chiedere contributi al potenziale partners che deve dimostrare valore aggiunto, competenza e garanzia di esecuzione

Chi entra non fa un favore, né un servizio, deve essere consapevole che deve partecipare realmente al progetto e alla sua implementazione e che ha diritto al co-finanziamento

Deve dimostrare entusiasmo e spirito di collaborazione costruttiva

Nel caso non fossero selezionati ... è bene dare loro il feedback e la motivazione

IL PRINCIPIO DEL COORINATORE | LEAD PARTNER CAPOFILA | BENEFICIARIO ...

NB: verifica eleggibilità del capofila

Ruolo e responsabilità:

- Firma Grant Agreement /Subsidy contract
- Gestisce i rapporti con la commissione/l'agenzia /l'autorità di gestione
- Gestisce i flussi finanziari (chiede i rimborsi, incassa e redistribuisce)
- Coordina il progetto e ne è responsabile nei confronti della Commissione

I partners/ co-beneficiari danno mandato al capofila di rappresentarli, "accedono" al Grant Agreement tramite Portale regolano i loro rapporti interni (responsabilità e ruoli) con una partnership/consortium agreement

CHALLANCES E PROBLEMI CHE UNISCONO

Problemi **comuni** a tutte le diverse regioni interessate, e tuttavia divisi gli uni dagli altri a causa delle diverse condizioni (geografiche, socio-politiche, ecc.): significa che i problemi risultano essere gli stessi, ma le cause o i presupposti per affrontarli variano sensibilmente da regione a regione

Tali problemi possono di essere affrontati separatamente attraverso strumenti diversi

Problemi decisamente **condivisi** e che necessitano di essere affrontati attraverso azioni quindi comuni.

QUESTIONI CHE UNISCONO

La costruzione del partenariato deve partire dalla **accurata identificazione del problema.**

Un progetto che parta da un **problema locale**, o da un singolo organismo o più organismi del medesimo Paese e che poi cerchi partner in altre Paesi al mero fine di rendere eleggibile la proposta, nasce già con **poche possibilità di successo.**

NB: I **work programmes** riportano un'accurata descrizione della problematica e la relativa impostazione degli obiettivi: generali, specifici, operativi

RICORDIAMOCI

Un partner non dovrebbe mai essere scelto solo per riempire uno spazio bianco di un formulario negli ultimi giorni di progettazione.

Oltre all'interesse nel progetto e alla possibilità di contribuirvi attivamente, il partner dovrebbe dimostrare la sua competenza nel campo, e mettere in evidenza i suoi rapporti di rete con organizzazioni complementari, o expertise esterne da contattare e mettere a servizio del progetto.

.....

CRITERI PER UN BUON PARTERNARIATO

- **Sviluppo** congiunto: progettazione condivisa
- **Attuazione** congiunta: attività integrate, gestione coordinata e condivisa l'output di un gruppo di partners diventa input per altri e i risultati apportano benefici a tutti
- **Personale** condiviso: no duplicazioni di ruoli e funzioni, team transnazionale/Europeo
- **Finanziamento** congiunto: budget unico gestito congiuntamente in relazione alla suddivisione di tasks derivanti a attuazione congiunta e personale condiviso

Objectives

This action will support projects involving a large diversity of players active in different cultural and creative sectors, to carry out a broad spectrum of activities and initiatives. The action is anchored in the policy framework of the Culture strand of the Creative Europe programme and its cross-cutting issues (inclusiveness, reduction of environmental impact and gender equality). European cooperation projects are also meant to contribute to the implementation of emerging EU policy initiatives such as the New European Bauhaus.

European cooperation projects are open to all the cultural and creative sectors. However, considering that this action aims at pursuing the objectives of the CULTURE strand of the programme, projects involving exclusively organisations from the

0. Introduction

This is a call for proposals for EU **action grants** in the field of Culture under the **Creative Europe Programme**.

The regulatory framework for this EU Funding Programme is set out in:

- Regulation 2018/1046 ([EU Financial Regulation](#))
- the basic act (Creative Europe Regulation 2021/818¹).

The call is launched in accordance with the 2021 Work Programme² and will be managed by the **European Education and Culture Executive Agency (EACEA)** ('Agency').

 Please note that this call is subject to the final adoption of the Creative Europe Regulation by the legislative authority, and of the budget by the EU budgetary authority. In case there are substantial changes, we may have to modify the call (or even cancel it).

The call covers the following **topics**:

- **CREA-CULT-2021-COOP-1 — European Cooperation projects (small-scale)**
- **CREA-CULT-2021-COOP-2 — European Cooperation projects (medium-scale)**
- **CREA-CULT-2021-COOP-3 — European Cooperation projects (large-scale)**

Each project application under the call must address only one of these topics. Applicants cannot submit more than one proposal under this call.

9. Award criteria

The **award criteria** for this call are as follows:

- **Relevance (30 points):**

This criterion will take into account the extent to which the proposal:

- is relevant to the objectives and priorities of the call;
- is based on a sound and adequate needs analysis;
- addresses the cross-cutting issues (inclusiveness, gender equality and reduction of environmental impact);
- has an European added value (i.e. transnational character of the actions and activities which complement regional, national, international and other Union programmes and policies; European dimension of the partnership).

- **Quality of content and activities (30 points):**

This criterion will take into account the extent to which:

- the proposed methodologies are appropriate for achieving the project's objectives;

Award criteria	Minimum pass score	Maximum score
Relevance	15	30
Quality of content and activities	15	30
Project management	10	20
Dissemination	10	20
Overall (pass) scores	70	100

Maximum points: 100 points.

Individual thresholds per criterion: 15/30, 15/30, 10/20 and 10/20 points.

Overall threshold: 70 points.

partnership

the project involves an appropriate mix of participating organisations in terms of profile and expertise, and ensures an active contribution of all of them;

- the target groups will benefit concretely from the project;
- the project design is consistent and coherent, notably with the proposed time-frame.

Project management (20 points):

This criterion will take into account the extent to which:

- the proposal includes effective mechanisms for coordination between the participating organisations and proposes an appropriate governance structure (including effective communication within the consortium, adequate procedures and problem solving mechanisms within the consortium);
- the project involves the appropriate project teams, staff and outside resources (including know-how, qualifications and resources), to successfully implement the project;
- the project's budget is cost effective and allocates appropriate resources to each activity (sufficient/appropriate budget for proper implementation; best value for money);
- the measures planned to ensure project implementation are of high quality (including management, risk management, quality control, planning, monitoring and evaluation).

- **Dissemination (20 points):**

This criterion will take into account the extent to which:

the project triggers change and innovation;
the communication and dissemination strategies have the potential to reach and positively impact the target groups and participating organisations, as well as the wider community;
the project proposal includes concrete and effective steps to ensure the sustainability of the project, its capacity to continue having an impact and producing results after the end of the action.

innovation

Topic description

Objective:

The objective is to support a comprehensive and intersectional approach and specific actions to prevent and fight against intolerance, racism, xenophobia, and discrimination, in particular on grounds of racial or ethnic origin, colour, religion, sexual orientation, gender identity, including when this manifests in the form of antigypsism, antisemitism, anti-Muslim hatred, Afrophobia and LGBTIQ phobia, offline and online. With this aim, the following priorities will be financed:

Fighting against intolerance, racism, xenophobia, discrimination, hate speech and hate crimes
Promoting diversity management and inclusion at the workplace, both in the public and private sector
Fighting discrimination against LGBTIQ people and promoting LGBTIQ equality through the implementation of the LGBTIQ Equality Strategy
Preventing, reporting and countering hate speech online
Restricted to public authorities to improve their responses to (multiple and intersectional) discrimination, racism and xenophobia

9. Award criteria

The **award criteria** for this call are as follows:

- **Relevance:** extent to which the proposal matches the priorities and objectives of the call; clearly defined needs and robust needs assessment; clearly defined target group, with gender perspective being appropriately taken into account; contribution to the EU strategic and legislative context; European/trans-national dimension; impact/interest for a number of countries (EU or eligible non-EU countries); possibility to use the results in other countries (potential for transfer of good practices); potential to develop mutual trust/cross-border cooperation (40 points)
- **Quality:** clarity and consistency of project; logical links between the identified problems, needs and solutions proposed (logical frame concept); methodology for implementing the project with gender perspective being appropriately taken into account (organisation of work, timetable, allocation of resources and distribution of tasks between partners, risks & risk management, monitoring and evaluation); ethical issues are addressed; feasibility of the project within the proposed time frame; financial feasibility (sufficient/appropriate budget for proper implementation; cost-effectiveness (best value for money) (40 points)
- **Impact:** ambition and expected long-term impact of results on target groups/general public; appropriate dissemination strategy for ensuring sustainability and long-term impact; potential for a positive multiplier effect; sustainability of results after EU funding ends (20 points)

Maximum points: 100 points. Individual threshold for the criterion 'Relevance': 25/40 points. Overall threshold: 70 points. Proposals that pass the individual threshold for the criterion 'Relevance' AND the overall threshold will be considered for funding — within the limits of the available call budget. Other proposals will be rejected.

Award criteria	Minimum pass score	Maximum score
Relevance	25	40
Quality — Project design and implementation	n/a	40
Impact	n/a	20
Overall (pass) scores	70	100

4. Evaluation

Evaluation criteria, scoring, threshold and process are described in the [Erasmus+ Programme Guide](#).

Erasmus+ KA2 collaborative partnership

Relevance of the project (maximum score 30 points)

The extent to which:

- the proposal is relevant for objectives and priorities of the Action. In addition the proposal will be considered as highly relevant if: it addresses the priority "inclusion and diversity";
- the profile, experience and activities of the participating organisations are relevant for the field of the application;
- the proposal is based on a genuine and adequate needs analysis;
- the proposal is suitable for creating synergies between different fields of education, training, youth and sport or it has potentially a strong impact on one or more of those fields;
- the proposal is innovative;
- the proposal is complementary to other initiatives already carried out by the participating organisations;
- the proposal brings added value at EU level through results that would not be attained by activities carried out in a single country.

Quality of the project design and implementation (maximum score 20 points)

The extent to which:

- the project objectives are clearly defined, realistic and address needs and goals of the participating organisations and the needs of their target groups;
- the proposed methodology is clear, adequate and feasible:
 - the project work plan is clear, complete and effective, including appropriate phases for preparation, implementation and sharing project results;
 - the project is cost-effective and allocates appropriate resources to each activity;
 - the project proposes appropriate quality control, monitoring and evaluation measures to ensure that the project implementation is of high quality, completed in time and on budget;
- the activities are designed in an accessible and inclusive way and are open to people with fewer opportunities.
- the project incorporates the use of digital tools and learning methods to complement their physical activities, and to improve the cooperation between partner organisations.
 - If Erasmus+online platforms are available in the field(s) of the participating organisations: the extent to which the project makes use of Erasmus+online platforms (eTwinning, EPAL, School Education Gateway, European Youth Portal, EU Youth Strategy Platform) as tools for preparation, implementation and follow-up of the project activities.
- The project is designed in an eco-friendly way and incorporates green practices in different project phases

If the project plans training, teaching or learning activities:

- the extent to which these activities are appropriate for the project's objectives and involve the appropriate profile and number of participants;
- the quality of practical arrangements, management and support modalities in learning, teaching and training activities;
- the quality of arrangements for the recognition and validation of participants' learning outcomes, in line with European transparency and recognition tools and principles.

Quality of the partnership and the cooperation arrangements (maximum score 20 points)

The extent to which:

- the project involves an appropriate mix of participating organisations in terms of profile, past experience in the Programme and expertise to successfully complete all project objectives;
- the project involves newcomers and less experienced organisations to the Action;
- the proposed allocation of tasks demonstrates the commitment and active contribution of all participating organisations;
- the proposal includes effective mechanisms for coordination and communication between the participating organisations, as well as with other relevant stakeholders.
- If applicable, the extent to which the involvement of a participating organisation from a Partner Country brings an essential added value to the project (if this condition is not fulfilled, the participating organisation from a Partner Country will be excluded from the project proposal at assessment stage).

Impact (maximum score 30 points)

The extent to which:

- the project proposal includes concrete and logical steps to integrate the project results in the regular work of participating organisations;
- the project has the potential to positively impact its participants and participating organisations, as well as their wider communities;
- the expected project results have the potential to be used outside the organisations participating in the project during and after the project lifetime, and at local, regional, national or European level;
- the project proposal includes concrete and effective steps to make the results of the project known within the participating organisations, to share the results with other organisations and the public, and to publicly acknowledge the European Union funding;
 - if relevant, the extent to which the proposal describes how the materials, documents and media produced will be made freely available and promoted through open licences, and does not contain disproportionate limitations;
- the project proposal includes concrete and effective steps to ensure the sustainability of the project, its capacity to continue having an impact and producing results after the EU grant has been used up.

To be considered for funding, proposals must score at least 60 points. Furthermore, they must score at least half of the maximum points in each of the categories of award criteria mentioned above (i.e. minimum 15 points for the categories "relevance of the project" and "impact"; 10 points for the categories "quality of the project design and implementation" and "quality of the partnership and the cooperation arrangements").

For Cooperation Partnerships managed by the Executive Agency, in ex aequo cases, priority will be given to highest scores for "relevance of the project" and then "impact".

9. Award criteria

The **award criteria** for this call are as follows:

1. Relevance (0-20 points)

- Relevance of the contribution to one or several of the specific objectives of the LIFE Programme and the targeted sub-programme
- Extent to which the proposal is in line with the description included in the call for proposals, including, where relevant, its specific priorities
- Concept and methodology: soundness of the overall intervention logic
- Extent to which the proposal offers co-benefits and promotes synergies with other policy areas relevant for achieving environment and climate policy objectives

2. Impact (0-20 points)

- Ambition and credibility of impacts expected during and/or after the project due to the activities, including ensuring that no substantial harm is done to the other specific objectives of the LIFE Programme
- Sustainability of the project results after the end of the project
- Quality of the measures for the exploitation of project results
- Potential for the project results to be replicated in the same or other sectors or places, or to be up-scaled by public or private actors or through mobilising larger investments or financial resources (catalytic potential).

qualita

3. Quality (0-20 points)

- Clarity, relevance and feasibility of the work plan
- Identification and mobilisation of the relevant stakeholders
- Appropriate geographic focus of the activities
- Quality of the plan to monitor and report impacts
- Appropriateness and quality of the measures to communicate and disseminate the project and its results to different target groups

4. Resources (0-20 points)

- Composition of the project team - in terms of expertise, skills and responsibilities and appropriateness of the management structure
- Appropriateness of the budget and resources and their consistency with the work plan
- Transparency of the budget, i.e. the cost items should be sufficiently described
- Extent to which the project environmental impact is considered and mitigated, including through the use of green procurement. The use of recognised methods for the calculation of the project environmental footprint (e.g. PEF or OEF methods or similar ones such as PEFCRs/OEFSRs) or environmental management systems (e.g. EMAS) would be an asset
